Blue: must be installed dependency
Red: Can install one or more of the dependencies
For example: To install X, we must also install A, and install E or C.
When we install a dependency, its dependencies must be installed too.

X depends on A and (E or C),
A depends on E and (H or Y)
E depends on B and (Z or Y)
C depends on K
H depends on nothing
Y depends on nothing
Z depends on nothing
K depends on nothing
M depends on J
J depends on nothing
O depends on (P or K)
